

# ENHANCE COLLABORATION

## Logitech Video Collaboration Group Portfolio

Logitech®, a world leader in products that connect people to the digital experiences they care about, has collaborated with Microsoft® to offer a range of brilliantly designed collaboration tools that are certified for Skype® for Business¹.

As one of the first companies to develop unique Skype for Business features, Logitech webcams enhance desktop collaboration with high quality HD video, while USB headsets and the P710e

mobile speakerphone delivers sound that's crisp, clear and heard by everyone in the meeting. Plus, the Logitech ConferenceCam lineup provides both razor sharp video and crystal clear audio that is so amazingly affordable — any meeting place can now be a video collaboration space.

USB plug-and-play connectivity makes Logitech Collaboration tools a breeze to deploy and use

within your own familiar computing environment with any video conferencing software application — including the ones you already use. Simply connect a laptop and start a meeting.

From personal workspaces to large-sized conference rooms, Logitech enhances Skype for Business productivity and collaboration with intuitively designed tools that adapt to the way people work.

## CONFERENCECAMS FOR GROUP VIDEO CONFERENCES
