

MAKE THE MOST OF YOUR MICROSOFT INVESTMENT.

Together, Logitech® and Microsoft® provide a better meeting experience, making the most of your Microsoft investment.

HOW?

IF THEY LIKE IT, THEY'LL USE IT.

SKYPE® FOR BUSINESS HAS MORE THAN

140 MILLION LICENSED USERS

Logitech's complete portfolio of Video Conferencing tools is Certified for Skype for Business.

Logitech + Microsoft solutions are so intuitive, people will actually love to use them. Logitech has an easy-to-use, plug-and-play design and familiar Skype for Business interface. Meetings are made simple, increasing user adoption of Skype for Business.

2

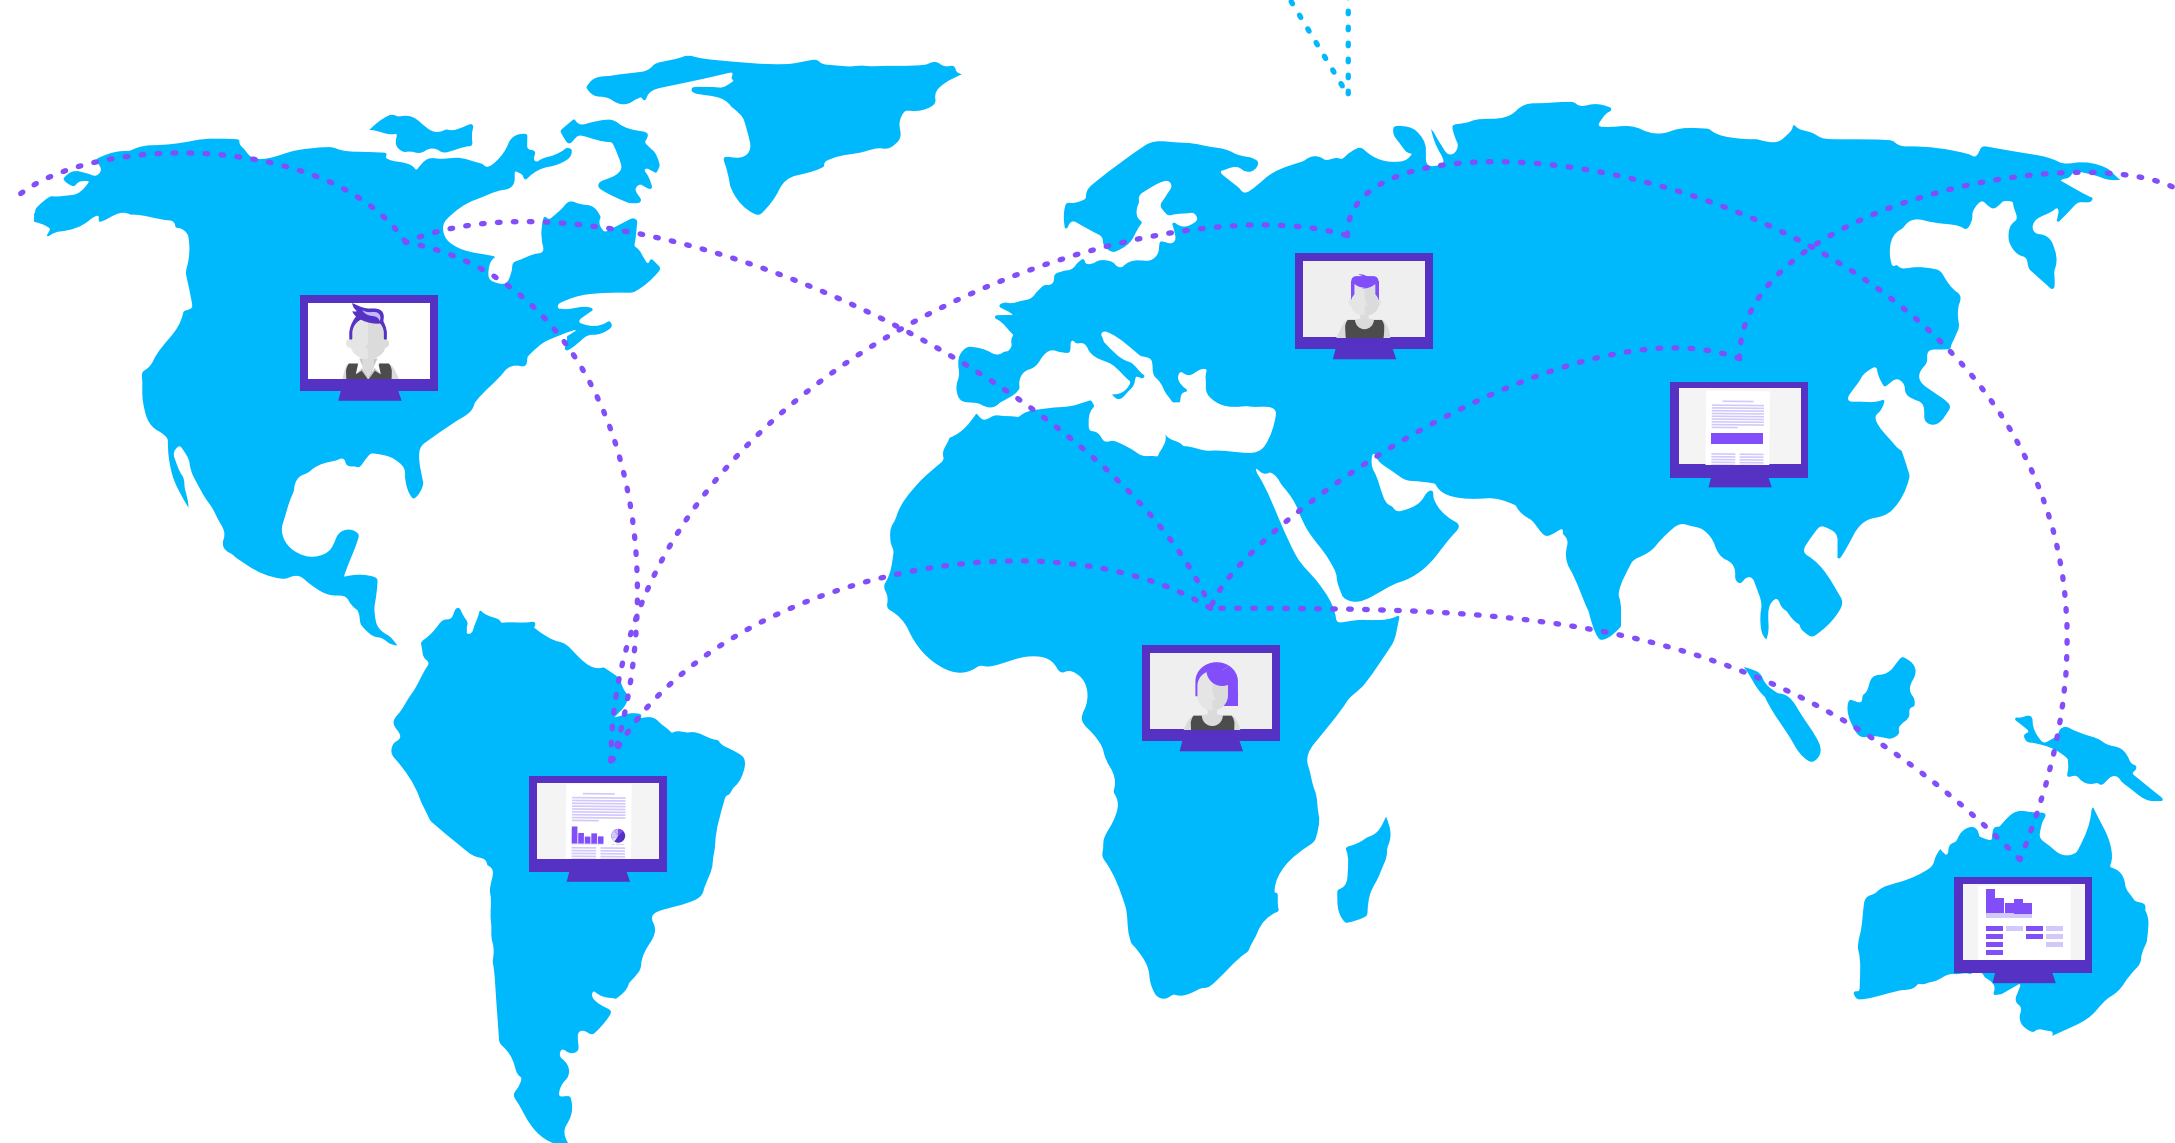

IT'S AFFORDABLE AND EASY TO EQUIP MORE ROOMS.

Meeting rooms with collaboration technology are used **5x more**.

97% of meeting rooms have only audio and display set-ups.

Logitech solutions are affordable and easy to deploy and manage across the organization. So IT can equip more rooms with Skype for Business.

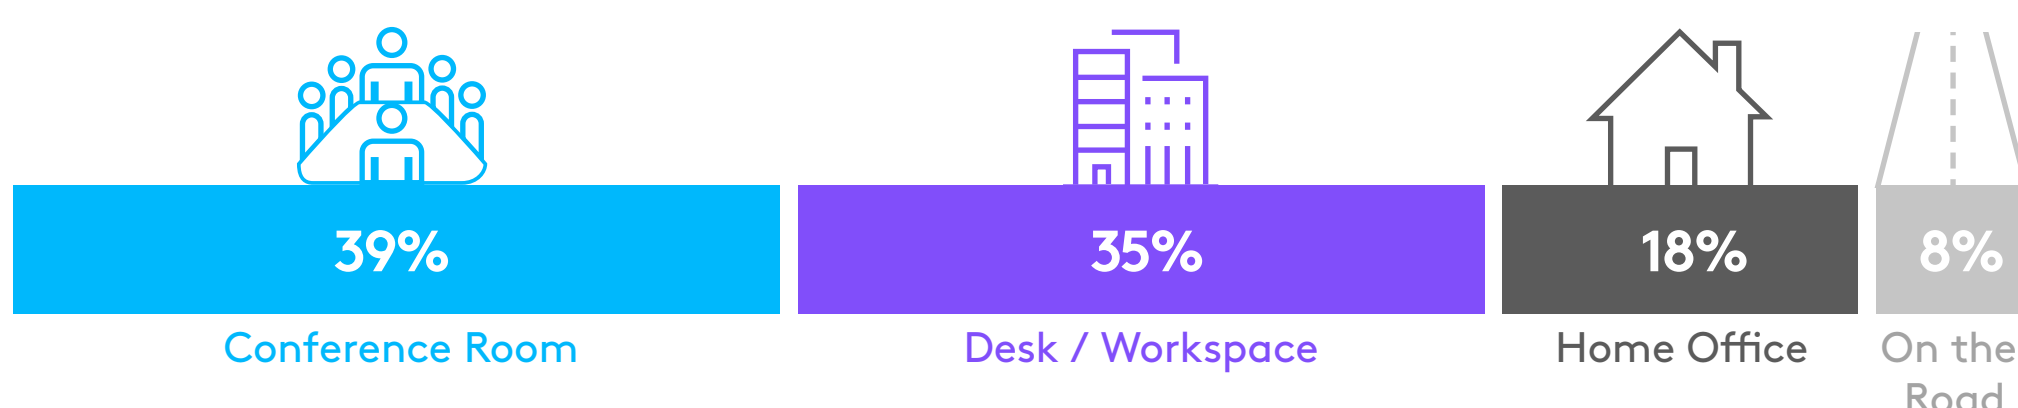

Logitech has a global support network and channel partners to service deployments around the world.

3

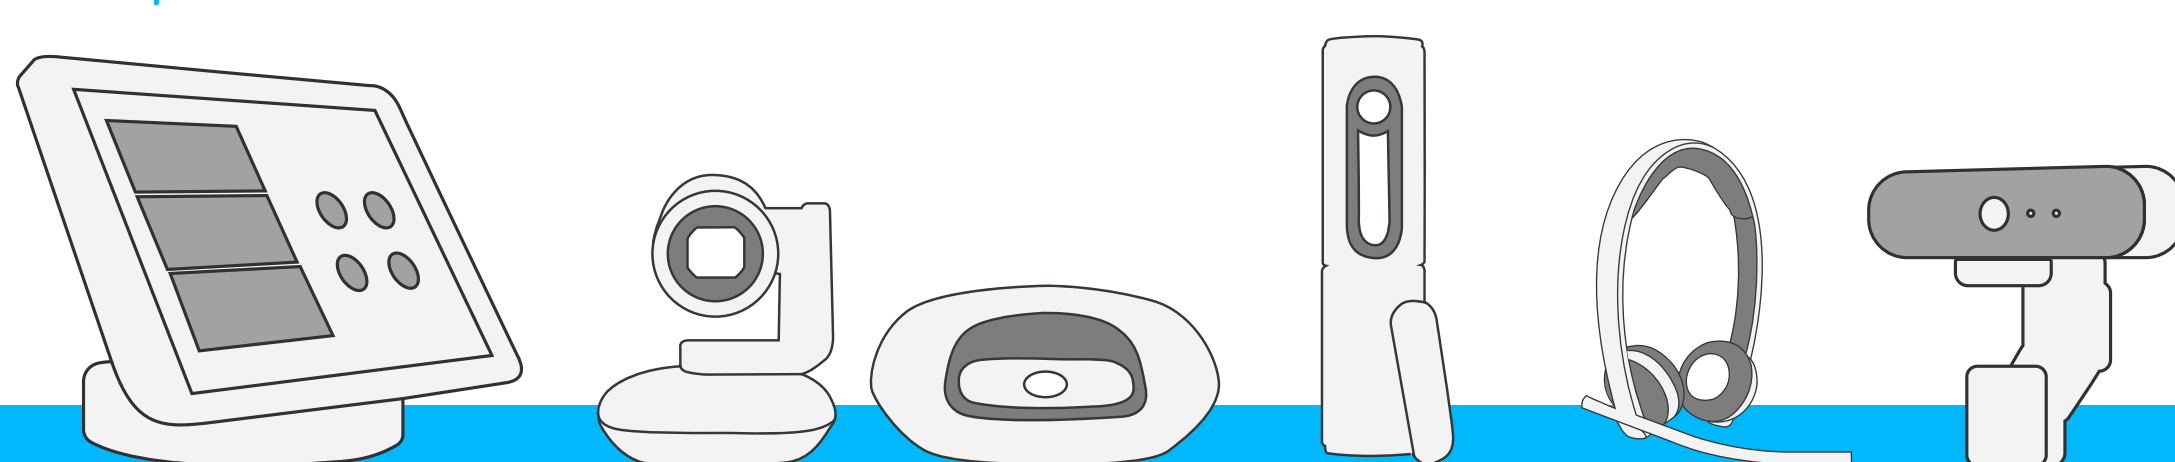

EXPERIENCE SEAMLESS VIDEO COLLABORATION, NO MATTER HOW OR WHERE YOU MEET.

MODERN MEETINGS = COLLABORATION ACROSS DIFFERENT ENVIRONMENTS

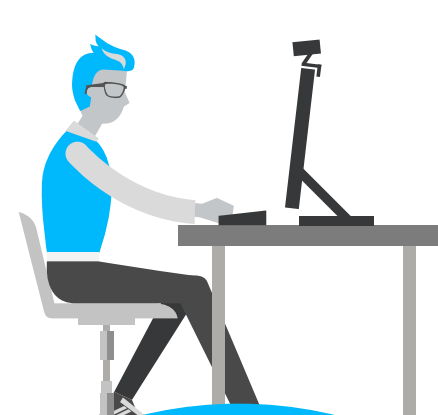

There is a Logitech + Skype for Business solution for rich video collaboration, no matter how or where you meet.

Together with Microsoft, SmartDock was created as the first AV Control Console for Skype Room Systems.

FOR BETTER MEETINGS, THERE'S LOGITECH + MICROSOFT.

Make the most of your Microsoft investment with Logitech Video Collaboration solutions. With Logitech, you can extend video collaboration to more environments, increasing consumption and accelerating ROI of your Microsoft Office 365™ / Skype for Business investments.

There are over 20 million Logitech devices sold worldwide that are certified for Skype.
